13151	Onli Chan Recpetionist	0305	blackdarknessplayzgd@gmail.com	5	Yes	I've moderated in many servers like this. For example; Slounge, Camden Bell's server. And many more. If you need any server invites please private message me.	No		No	Warn them, delete the bypass.	Tell a higher position or if I had the permissions I would ban them for violating terms of service.	Warn them, if they continue doing it they will be removed from the VC or have a server mute so they cant turn their mic on.	I would purge their messages and mute them so they cant spam and then a higher staff can ban or kick them.	Try to contact a higher staff or administration as fast as possible.
